

MPR Partners counsel to the buyer of two solar parks

MPR Partners assisted V-Ridium in the recent acquisition of two photovoltaic parks with a combined production capacity of 6 MWp from two separate privately owned companies. The multimillion-euro transaction, signed in October 2022 and closed on January 18, 2023, is the next step in the local expansion strategy of the Portuguese-listed energy company GreenVolt.

MPR Partners provided assistance throughout all stages of the transaction, including complex due diligence, the structure of the transaction, the mark-up and negotiation of the transaction documents and all other M&A aspects. Law firm's involvement also included assistance and advice related to the notification to the Competition Council.

The dedicated team, which provided corporate, M&A, regulatory, energy, competition, real estate and permitting assistance was coordinated by Partner [Dana Radulescu](#) and consisted of Partner [Daniel Alexie](#), Senior Associates, [Diana Borcean](#) and [Flavia Ștefura](#) and Associates [Oana Savulescu](#) and [Sonia Benga](#).

Founding Partner [Alina Popescu](#) coordinated all antitrust and foreign direct investment work pertaining to the deal.
